Pentagon EMS Completes Expansion, Adds Machines

Beaverton, OR (Dec. 11, 2006) – Pentagon EMS Corporation has recently completed expansion of its Beaverton, Oregon manufacturing facility.

The recently completed expansion to its corporate headquarters and manufacturing facility doubled floor space to 10,000 sq. ft. This now makes available 7500 sq. ft. of manufacturing floor space, and 2500 sq. ft. for office and engineering floor space. Included in the expansion was the addition of a sixth cnc vertical milling center and a cnc lathe with bar feeder.

“This expansion has enabled Pentagon EMS to increase efficiency through improved internal process flow as well as allowing us to increase capacity for future growth, enhancing our ability to meet our customers' needs in the growing industry of PCB manufacturing.” says Todd Evernden, Pentagon’s V.P. of Engineering.

Pentagon EMS is a value-added supplier of tooling and fixtures for the electronic assembly industry. Supported processes include Wave Solder, Surface Mount, Press-Fit, Conformal Coating, Inspection, Test, and more.

See Pentagon EMS at Booth #1445 at APEX and the Designers Summit, February 20–22, 2007 at the Los Angeles Convention Center in Los Angeles, CA. and find out more about Pentagon EMS on their website at www.pentagon-ems.com. Contact the company by phone at (503) 924-2747 or by email at sales@pentagon-ems.com.
