## Wash Baskets

Pentagon EMS offers **buffed and electropolished** stainless steel wire mesh wash baskets for printed circuit board washing. The top, bottom, and sides of these baskets are manufactured from **.044" thick stainless steel wire mesh** over a **.187" stainless steel wire welded frame and reinforcement** (approx. **.250"/.300" square openings**), and are **formed and welded with overlapping corners** for extra strength and rigidity. These sturdy, lightweight wash baskets feature a **.090" stainless steel wire looped and welded hinge**, an **easy to operate latch**, and **can be fabricated to any size** you need.
